

MAINS RISK PRIORITISATION SYSTEM (MRPS) TRAINING 2
TWO-DAY COURSE**THIS COURSE IS AIMED AT RELEVANT PERSONNEL WHO REQUIRE TRAINING TO COMPLETE ON SITE-SURVEYS OF GAS MAINS IN SUPPORT OF THE MAINS RISK PRIORITISATION SYSTEM (MRPS).**

The course will build on practical experience that the surveyor has gained from carrying out a minimum of 7 days on site training with an experienced MRPS surveyor (essential).

The course aims to give the surveyor the knowledge to choose the correct surveying technique in a variety of scenarios. This will mainly be done in the field using predetermined scenarios.

A good knowledge of mathematics and some basic map reading skills are essential for the course.

SUMMARY OF MAIN TOPICS COVERED BY THE COURSE**Classroom – Day 1 (am)**

- Why MRPS – a brief overview (10 min)
- Interpreting gas plans (20 min)
